PROFESSIONAL SUMMARY

Junior AWS Cloud Engineer / Cloud Support professional with operations and technical support experience, hands-on AWS practice, and strong documentation discipline. Familiar with EC2, S3, IAM, VPC, CloudWatch, RDS basics, Linux, Git/GitHub, Terraform basics, Bash/Python basics, and monitoring tools. Experienced in incident coordination, SLA tracking, access validation, troubleshooting, stakeholder follow-up, and clear technical documentation. Immediate joiner seeking a junior cloud infrastructure/support role in Pune.

CORE SKILLS

AWS & Cloud	EC2, S3, IAM, VPC, CloudWatch, RDS basics, Lambda basics, Auto Scaling, Load Balancer, Azure VM/Storage exposure
Linux & Support	Linux commands, service checks, logs, SSH, permissions, disk/CPU/memory checks, incident handling, RCA support, SLA tracking
DevOps Basics	Git, GitHub, Terraform basics, CloudFormation basics, CI/CD concepts, Jenkins basics, Docker basics
Networking & Security	DNS, TCP/IP, HTTP, subnets, route tables, security groups, NACL basics, least-privilege IAM, access validation
Scripting & Tools	Bash basics, Python basics, HTML, CSS, JavaScript, Firebase/Firestore, Prometheus, Grafana, Node Exporter

PROFESSIONAL EXPERIENCE

Freelance Cloud & Web Projects - Pune, India | Jan 2026 - Present

- Built a Firebase-backed web dashboard for a gated society to log, track, and update maintenance issues using HTML, CSS, JavaScript, Firebase, and Firestore.
- Troubleshoot setup and integration issues including Firestore permissions, API enablement, database configuration, local hosting, and frontend connectivity.
- Practiced AWS infrastructure tasks through personal projects, including EC2 access, S3 configuration, IAM policy checks, CloudWatch monitoring, and documentation of setup steps.

IDFC FIRST Bank - Operations & Technology Support | Sep 2023 - Jan 2026

- Handled customer-facing banking operations, issue resolution, documentation, follow-ups, and escalation coordination in a structured BFSI environment.
- Supported incident coordination, SLA tracking, stakeholder communication, access/configuration validation, and operational checks for business-critical processes.
- Prepared clear notes, RCA inputs, and repeatable troubleshooting/checklist documentation to reduce back-and-forth during recurring issues and escalations.

ETTL - Technical / Cloud Operations Support | Jan 2020 - Aug 2023

- Started in a technical engineering role and developed strong documentation, reporting, quality-check, coordination, and analytical problem-solving skills.
- Assisted with Azure/cloud operations exposure including VM checks, storage access validation, connectivity checks, monitoring review, and post-activity documentation.

PROJECTS

AWS Monitoring Stack | EC2, Linux, Prometheus, Grafana, Node Exporter

- Deployed a test monitoring setup on AWS EC2 to observe CPU, memory, disk, uptime, and service availability; documented Linux commands, security group checks, and troubleshooting steps.

AWS Practice Architectures & Cloud Labs | AWS, Terraform basics, CloudWatch

- Designed and practiced small AWS architectures involving EC2, S3, IAM, VPC, CloudWatch, RDS basics, Auto Scaling, Load Balancer, lifecycle rules, and basic Terraform workflows.

EDUCATION & TRAINING

- **B.Tech - Mechanical Engineering, Symbiosis International University, Pune | 2019**
- Post Graduate Program in Cloud Computing - Caltech CTME / Simplilearn | 2023

AWS Solutions Architect Associate SAA-C03 - training completed; certification preparation ongoing

AVAILABILITY & STRENGTHS

Immediate joiner | Strong documentation | Support mindset | Fast learner | Comfortable with shifts and cross-team coordination
